**Dates of the project: 1 June – 30 September, 2017**

**Dates of the exchange: 9– 16 July 2017**

**Venue:**

Purchena (Almería-Andalucía-Spain)

**Participants:**

- 5 PARTICIPANTS (**14-17 YEARS OLDS**) + 1 LEADER (no matter the age) per country.
- **3 EU´s PARTNER countries + PROMOTER**
- **IMPORTANT: only partners with interest and experience in graffiti.**

**The promoter**

*Illipula Youth Association*, from Purchena (Almería-Andalucía-Spain). This association organizes in Purchena great number of activities in different subjects. For this project we have the support of the Youth Information Office and the collaboration of other youth associations.

**The project**

Perhaps these are not the best times for Europe but we feel Europeans, we like Europe and we, as youngsters, are Europe and we must, we have to show this feeling.

We will show our European feeling through different artistic and creative trends: graffiti, video and hip hop music.

*We believe it can be a project of great impact. Participants will make one great graffiti, one video and one hip hop song from our creativity based in Europe. Our organizations will be able to show what kind of activities we can do to support Europe because it is going to be a very visible project. We will also strengthen our European awareness because we will do it through art and artistic trends that unite us young Europeans*

*All this through the participation of all, with respect for others and showing that the art and culture can be a helpful activity to unite Europe.*

### Before the exchange

Every partner must find a leader and participants with interest in art and culture and, of course, who feel Europeans.

### During the exchange

All the participants, in groups, will participate in the realization of the graffiti, the video and the hip hop song. Of course we will do other activities about art, graffiti, painting, music...

### After the Exchange

Our idea is to edit a video about the project, spread the graffiti and the song about Europe and, of course, to continue the project in partners countries.

### **The goals**

- To use the art as a way/tool to know other cultures, other European realities.
- To promote the European feeling and citizenship and the intercultural dialogue.
- To involve youngster in their community projects as the protagonists of them.
- To stimulate young people's spirit of initiative and creativity.

### **Working methods**

We will work with different methods, mostly non- formal education methods, work in small or bigger groups, participate in simulation or role-play activities, direct contact with the local population and of course art and culture to unite Europe. Bring your photo camera with you...The point is: making it as fun as possible!

**Travel costs:** Erasmus+ KA1 grant depending on distance

**Participation fee:** No additional participation fee. We cover the accommodation with full-board from the Erasmus+ funds.
